The Microelectronics Students Forum is an event promoted by the Brazilian Microelectronics Society (SBMicro) and the Brazilian Computer Society (SBC) with the following main goals:

- Promote the participation of undergraduate students in the two most important international events in the area of Microelectronics organized each year in Brazil: "SBCCI: Symposium on Integrated Circuits and Systems Design" and "SBMicro: Symposium on Microelectronics Technology and Devices";
- Promote the realization of student's projects in a variety of topics within the field of microelectronics;
- Provide an opportunity for the presentation and discussion of research projects developed by undergraduate students;
- Promote advanced tutorial presentations on microelectronics understandable for undergraduate and graduate students starting or willing to start in this promising field.
